

A Welcome Distributing Product

## GraBar BootBars Installation Instructions:

**Installing the GraBar BootBars is a two step process...**

**STEP 1:**

Remove your doors.

**STEP 2:**

Bolt the GraBar BootBars into the hole of the lower hinge using the supplied bolts and nuts, tightening the nuts securely.

**NOTE:** Welcome Distributing offers a variety of grip color options. To remove or rotate the grip, use an air compressor with a rubber tipped nozzle and insert air into the hole at the end of the grip. This will allow you to reposition or remove the grip.

Congratulations on installing your new GraBar BootBars. We thank you and your family for partnering with Welcome Distributing! If you have any questions or need any additional help, don't ever hesitate to contact us!
