

## Jeep® Wrangler JK Cargo Light

### Installation Instructions

1. Insert four (4) AA batteries into the battery holder ensuring that batteries make positive contact with holder connections.
2. Remove existing wiper motor cover by pulling firmly on the cover.
3. Snap the Cargo Light into place making sure that all three contact points are securely holding the light.
4. Light will automatically come on when the switch is in the "on" position as long as lift gate is open but can also be manually operated by using the switch on the exterior of the cover.  
**NOTE:** Lift gate must be open for light to function.
