2007-2017 JK Wrangler

Dead Pedal - Passenger Side

Contents:

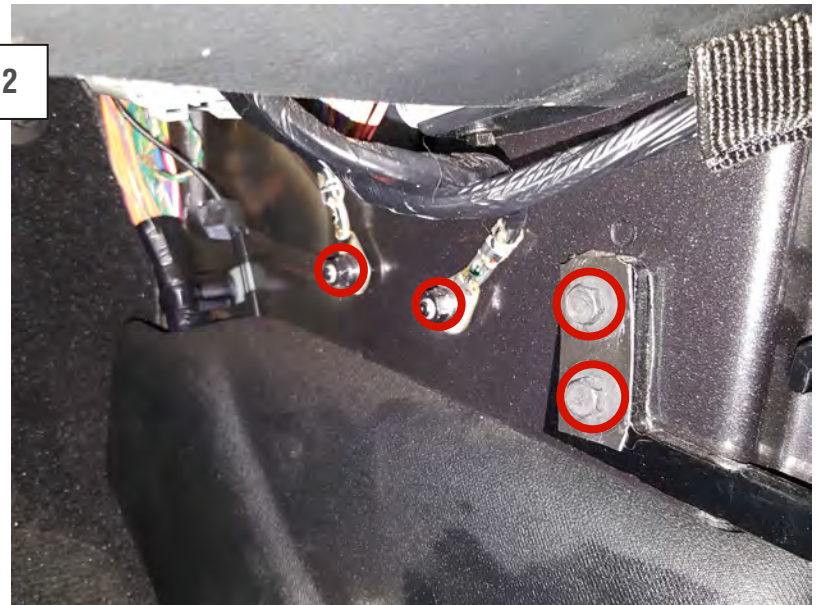

(1) - Passenger Side Dead Pedal

1

Begin by disconnecting the door's electrical connection. Follow the door strap under the dash to locate the plug. Once the plug is disconnected, unhook the door strap from the vehicle.

2

Remove the (2) 10mm door strap hook bolts and strap hook. Then remove the (2) 10mm electrical ground nuts.

3

Install and secure the dead pedal using the factory hardware. Then reconnect the door's electrical connection, and door strap.
