

REDROCK^{4X4}

2007-2017 JK Wrangler

LED Third Brake Light

Contents:

(1) - LED Third Brake Light

1

Begin by removing the (4) screws that hold the factory third brake light to the tire carrier. Unplug the wiring harness from the third brake light and remove the third brake light from the vehicle.

2

Plug the third brake light harness into the new third brake light.

3

Install the (4) factory screws to the new third brake light.
