Rain Guards - Smoked - 2 Door

## Contents:

- (1) - Driver Side Rain Guard
- (1) - Passenger Side Rain Guard

1

Begin by thoroughly wiping down the area of the doors where the rain guards will adhere. Be sure the door area is clean and free of any grease, dirt, or dust.

2

Peel the backing from the 3M tape on the rain guards and install on the top edge of the doors.

3

Install the remaining rain guards. Be sure they are all aligned before pressing down to fully seat the adhesive tape.
