License Plate Bracket - Tire Carrier Mounted

Contents:

(1) - License Plate Bracket

1

Begin by removing the spare tire from the vehicle.

2

Line up the holes, and slide the license plate holder onto the threads of the spare tire carrier. **Spare tire will keep this from coming off.

3

Reinstall the spare tire, and secure. Install the license plate end onto the shaft coming through the spare tire and tighten the allen bolt to secure. ** Note: Removal of spare tire center cap is required.
