# JEEP 20" HOOD MOUNT BRACKET KIT INSTALLATION

## TOOLS NEEDED FOR INSTALLATION

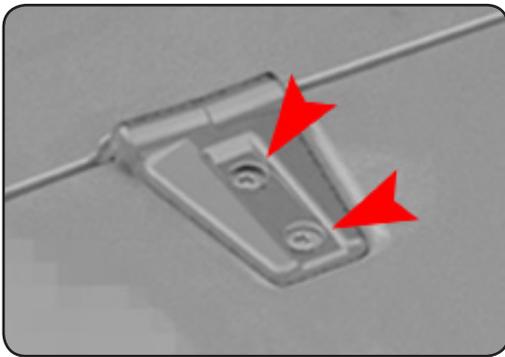

T-50 Torx Socket

13mm Socket

## INSTALLING THE BRACKET KIT TO YOUR VEHICLE

### 1. Remove Hood Hinge Bolts

Locate the 2pcs Torx bolts that attach the hinge to the hood. Use the T-50 Torx socket to carefully remove the bolts from one side only (you can start with passenger or driver side).

### 2. Attach Hood Mount Brackets

Place one of the supplied steel spacers over each hole on top of the hinge, then sit the bracket on top and secure by screwing in the supplied M8 hex bolts + flat washers with the 13mm socket.

Repeat steps 1-2 for other side.

### 3. Install your KC 20" LED Light Bar

Install light bar and harness per supplied instructions.
